

PROJECT MANAGEMENT OFFICES, BUILDING 34

F. Hoffmann-La Roche AG, Basel, Switzerland 2011 / 2012

A large, planned and implemented reconstruction for internal and external project management of major construction project progress in the former manufacturing building 34 on Grenzacherstrasse. The conversion is provisional, limited to 5 years.

The five storeys were converted for a different use. In the 3rd floor two galleries have emerged drenched in the light space for small meetings. The entire 2nd floor is designed for offices of internal and external project management, each with a small kitchen, and meeting rooms in the core zone in CUBO building system. The 1st floor has been fitted with wardrobes in the edge zones, showers, toilet facilities and meeting rooms in the core area, and office space for the builder in the south. On the ground was a catering hall for 350 workers of the contractor who will be employed in progress 1, furnished and equipped with a spacious toilet facility in the core area. In 1.UG an archive for the project management office was set up.
